La Weeda,
Victoria Moaveni (909 396-2455) should be able to help you with your emission inventory request. She is out of the office today but should be in tomorrow; she will call you then.

Subject: RE: Exide Information

Philip, I downloaded 2010 facility emissions (from South Coast AER system) for both Exide and Quemtco and need to know what adjustments were made relevant to the AEI numbers presented in the SC Lead SIP. Please let me know if there is a South Coast contact person I should work with as I look into the SC Lead Inventory. Thanks.

Subject: Exide Information

Hello Philip:

It was nice seeing you yesterday at the Exide Technologies Public Meeting. Per our discussion, I would like the following information on Exide Technologies:

- 1) Copy of approved compliance plan per Rule 1420.1 (if releasable)
- 2) Timeline (if available) for plan implementation and testing.
- 3) Facility point and fugitive emissions for the following years if possible (2005, 2010, and 2012).

Also, please confirm for me that no data on Arsenic emissions are available. Thank you so much and let me know if you have any questions.
